WHO ARE WE?

- We are brand which provide an excellent platform to give Pharmaceutical, Biotechnology and Microbiology students, opportunity to take an overview of Manufacturing Unit.
- We have Professional Industrial training for Graduates to provide them placements.
- We have Tie-ups with Elfin Drugs, Nifle, Mercury Pharmaceutical etc, where trainees get industrial exposure.

We have trained 5000+ students since and now have tie ups with renowned universities

Center for Training & Skill Development: Training Module

PHARMACEUTICAL TRAINING MODULE

Module 1	Pharmaceutical Industry Pharmaceutical Legislation Good Industrial Practices
Module 2	Facilities and Equipment
Module 3	Materials Control Manufacturing Packaging of Dosage forms Manufacturing of API
Module 4	Quality Control
Module 5	Quality Management System

INDUSTRIAL MICROBIOLOGY TRAINING MODULE

Fundamentals of microbiology

Media and reagent preparations, calculations

Bacteria isolation, identification and purification techniques

Various tests such as pyrogen test, sterility test, bacterial motility test

Microbial enumeration techniques

BIOTECHNOLOGY TRAINING

Note :- Highly focused as per requirements of pharmaceutical industries.

Combination of topics involved:-

Pharmaceutical- GMP, GLP; Instruments such as UV spectrophotometer, HPLC; Dissolution Test, Disintegration test, pH, Friability, Hardness test, Assay

Microbiology- Reagent and media preparation, calculations; Bacteria isolation, identification and purification; Microbial enumeration techniques, pyrogen test, sterility test, CFU.

PROFESSIONAL INDUSTRIAL TRAINING CAPITAL

Features:

1. Practical training under professionals at manufacturing unit
2. Industrial exposure
3. Assessment & Placement

Duration of course:

★ 2 Months: 15000/-INR

INDUSTRIAL TRAINING PROGRAM

Features:

1. Industrial session of 4 hours at manufacturing unit.
2. Trainee's involvement in different departments of the unit
3. Evaluation & Certification

Duration of course:

★ 2 weeks: 4000/-INR

★ 4 weeks: 8000 /-INR

Certification: Official training Certificate will be provided on successful completion of assignments & Projects at the end of the program.

Eligibility: Our Industrial Training Program is open to B.Pharm, B.Sc./ .Sc./ B.tech/ M.tech students of Microbiology, Chemistry, Biotechnology, Environmental Science, Bio-Science and Life Sciences.
